## Introduction

Esoft Technologies was formed in 2003 as a one stop shop for Total Information Technology Business. It is formed on the strength of experience, skills and talents. It is committed to excellence in **IT Consultancy/Services, Offshore Development and Outsourcing.**

With an impressive repertoire of many international high-end projects on advanced platforms, our IT strategy & infrastructure is firmly aligned with the rapidly changing demands of the software industry & your business needs.

Whether it's building dynamic e-commerce websites, developing generic products or business specific applications, we pride ourselves in being able to provide **total software solutions** for any of your needs. Our industry experience extends to providing solutions to several information intensive industries such as the financial, healthcare, retail and information services. We specialize in delivering high-quality, cost-effective full lifecycle solutions for businesses with intensive information processing needs.

We pride ourselves in the highly experienced and motivated team of software and management professionals based in India. The team is always committed to deliver quality solutions and services on schedule.

We currently have clients/alliances in different parts of the world including the USA, Canada, UK, Iceland, Denmark, Sweden, Mexico, Singapore, Indonesia, Malaysia and India.
